Profile

To work as a Python Full Stack Developer in a growth-oriented organization where I can apply my knowledge of back-end and front-end development, build robust web applications, and continuously enhance my skills in modern web technologies while contributing effectively to team projects.

Project

- | | |
|------|--|
| 2025 | Design of a reversible serial adder using EPOE expressions for computational application , VLSI, Xilinx Vivado, 2nd Team leader, Considering the growing trend toward reducing the size of electronic devices, reducing power consumption has become one of the major concerns of circuit designers. One of the solutions to reduce power consumption is the design of reversible circuits |
| 2025 | python mini project jio hotstar , developed a mini version of the Jio Hotstar application using Python, focusing on backend functionality. The project includes user authentication, content listing, search, and filtering features. Users can browse movies, TV shows, and live content through a console-based interface. The project strengthened skills in Python programming, data handling, and application. |
| 2025 | front-end mini project was Spotify clone , developed a frontend clone of the Spotify music streaming platform using HTML, CSS, JavaScript, and Bootstrap. Implemented features such as music cards, trending songs, popular artists, albums, radio section, and a responsive footer. Focused on creating a responsive and visually appealing user interface, enhancing skills in frontend web development. |
| 2025 | Flask mini project, e-commerce website , this project focuses on creating a simple yet effective e-commerce website using the Flask web framework in Python. The platform provides all essential online shopping functionalities, including product listing, user authentication, cart management, and order processing. It uses Flask as the backend framework for handling routes, sessions, and database communication, and HTML, CSS, Bootstrap, and JavaScript for the frontend interface. |

Professional Experience

2025 Full Stack Python Development – Codegnan IT Solutions

- Successfully completed an intensive Full Stack Python training program.
- Learned and worked with Python, Django/Flask, HTML, CSS, JavaScript, Bootstrap, and SQL.
- Gained hands-on experience in building full-stack web applications with database integration.
- Developed real-time projects including:
 - Portfolio website
 - CRUD-based applications
 - E-commerce modules
- Improved problem-solving skills using data structures and algorithms.
- Used Git and GitHub for version control and project management

InternShip

2025

Risk Guard Enterprise Solutions OPC Private Limited

- Completed an internship at Risk Guard Enterprise Solutions OPC Pvt. Ltd.
- Worked as a Python Full Stack Developer and UI/UX Designer.
- Built web applications and designed clean, simple, and user-friendly interfaces focused on usability and accessibility.
- Created wireframes, UI layouts, and design components following UI/UX best practices to improve user experience.
- Used Python, Django, HTML, CSS, JavaScript, and React for development and design.
- Worked on backend APIs, database handling, UI design, bug fixing, testing, and deployment with the team to build client projects.
- Collaborated with developers and designers to ensure consistent design, responsive layouts, and smooth user flows across applications.

Education

2021 – 2025

Usha Rama College of engineering and technology
(ECE)Electronics and communication engineering
CGPA 7.87

2021

Narayana Junior College

2019

Narayana e-techno School

Skills

Developed Skills

- | | |
|--------------------|-------|
| • Python language | HTML |
| • Java script | Flask |
| • Microsoft Office | CSS |
| • Problem Solving | SQL |
| • Communication | UI/UX |

Languages

- | | |
|----------|-----------|
| • Telugu | • English |
|----------|-----------|

Hobbies

- | | | |
|-----------------|----------------------|---------------------|
| • Reading Books | • Learning newthings | • Playing badminton |
|-----------------|----------------------|---------------------|

Certificates

- | | |
|---------------------------|---|
| • work shop certificate | • EduSkills certificate on CYBER SECURITY |
| • AWS certificate on AIML | • Hacker Rank Python |

Declaration

I hereby declare that all the above-mentioned information is true and genuine to the best of my knowledge and belief
